

FOR IMMEDIATE RELEASE

SoloSports to Host Kite Surfing Clinic

Oct.30-Nov.6 2004

Lake Forest, California, July 7, 2004: Kevin Trejo, owner of SoloSports at Punta San Carlos today announced that he will host a kite surfing clinic on Oct. 30 – Nov. 6, 2004 at his Campo SoloSports in Punta San Carlos. This will be the first kite clinic devoted exclusively to wave riding on a kiteboard. To round out the program, each attendee will be given a free surf style kiteboard designed to maximize their wave riding experience in Punta San Carlos side off conditions. Punta San Carlos, Baja has long been a world renowned wavesailing destination and more recently to advanced kiteboarders who wish to ride waves. The side off wind conditions and contoured beach make excellent shaped waves for surfing, wavesailing and kite surfing.

Trejo, a long time kiteboarder at San Carlos has refined his wave riding skills there over the past several years. Comments Kevin – “Wave riding side off wind conditions requires a different skill set and equipment most of our kiting guests have not experienced. It can be frustrating to come down here with the latest and greatest equipment only to struggle with wave riding. It was after seeing so many talented kiterboarders miss the potential that I decided to share my knowledge and expertise“. Kevin is currently negotiating with kiteboarding industry manufacturers to co-partner the event. He is also reported to be soliciting guest appearances from pro kite surfers that excel in these conditions.

The kite surfing clinic is an all inclusive adventure holiday package including roundtrip touring van transportation to and from Irvine or San Diego California to Punta San Carlos Baja, deluxe camping with hot showers, all food and drinks in the SoloSports campo, and use of the campo’s amenities – including Internet and e-mail services, for only \$1900.
